STATEMENT #1
CPNI PROCEDURES

- 1. To ensure compliance with Section 64.2005 of the FCC's CPNI rules, concerning the use of CPNI without Customer approval, the Companies employ the following procedures.**

The Companies have not used and do not plan to use CPNI for marketing. The Companies do limited to no marketing – and do not use CPNI for that marketing.

- 2. To ensure compliance with Sections 64.2007 and 64.2008 of the FCC's CPNI rules, concerning the use of CPNI with customer approval and the corresponding notices, the Companies employ the following procedures.**

The Companies do not use, disclose or permit access to CPNI to market services that are not within a category of services to which the customer already subscribes. Thus, the Companies do not send notifications or request corresponding approvals from their customers. The Companies do not use joint venture partners or independent contractors for marketing purposes.

- 3. To ensure compliance with Section 64.2009 of the FCC's CPNI rules, concerning the safeguards for the use of CPNI, the Companies employ the following procedures.**

The Companies use one and only one customer service representative (CSR), who attends regional training programs on a regular basis. We have an express disciplinary process in place to handle any instances where improper use is made of CPNI. This process could include a write up on the employee's record and retraining in CPNI procedures. We have a supervisory review process regarding compliance with the CPNI rules; we retain records of compliance as required by the rules, and sales personnel obtain supervisory approval of proposed requests for opt-out approvals.

- 4. To ensure compliance with Section 64.2010 of the FCC's CPNI rules, concerning safeguards for disclosing CPNI, the Companies have employed the following procedures ever since Section 64.2010 went into effect.**

Telephone access to call detail information is provided only in accordance with the guidelines established in the CPNI rules. The Companies are working with customers to establish passwords and back-up authentication methods, if requested by the customers. Telephone access to non-call detail information is provided after the customer is

authenticated. In-store access to CPNI is provided after a customer provides a valid photo ID. The Companies do not provide online access to CPNI. The Companies do not have contracts with business customers and therefore do not need to make modifications to *provide alternative authentication regimes*. Whenever account information changes as specified in Section 64.2010, the Companies immediately notify the customer, usually via a telephone call..

5. To ensure compliance with Section 64.2011 of the FCC's CPNI rules, concerning notifications of security breaches, the Companies employ the following procedures.

All staff have been trained in procedures to follow to report breaches internally. We have had no breaches since this rule went into effect. When a breach is confirmed, the appropriate regulatory personnel are prepared to make the required notifications to the United States Secret Service, the Federal Bureau of Investigation, and the customer, as required and permitted under Section 64.2011. Records of such breaches and the corresponding notifications are maintained for at least two years.
